Portfolio: aniket-Portfolio

TECHNICAL SKILLS

Languages: JavaScript
Technologies/Frameworks: HTML, CSS, React.js, Node.js, Express.js, Redux, React Native
Operating Systems: Windows
Databases: MongoDB
Tools: Git, GitHub, VS Code, Postman, MongoDB Compass, CMS (Strapi)

PROFESSIONAL EXPERIENCE

1) Plugseal Innovation Services Pvt Ltd — Software Developer December 2023 - June 2025

- Delivered four live projects on time, improving delivery speed by 15% while ensuring efficient post-launch support.
- Managed application state using Redux and optimized UI components, enhancing UX and system performance by 20%.
- Created reusable components and conducted regular code reviews, reducing code duplication by 30%.
- Conducted API testing with Postman, improving system reliability by 25% and automating key test scenarios to minimize manual testing efforts.

2) AppxBuild Technologies Pvt Ltd — Full Stack Developer December 2020 - January 2022

- Innovated 3 React JS and 3 React Native applications, enhancing user experience and improving app performance by 20%.
- Crafted an engaging GUI for all 8 applications using HTML, CSS, and JavaScript, increasing user interaction by 15%.
- Conducted API Testing through Insomnia, ensuring robust functionality and reducing system errors by 25%.
- Collaborated with cross-functional teams to refine user requirements and optimize application performance, leading to a 10% increase in development efficiency.

PROJECTS

1) CartZ — *An E-Commerce application offering a variety of clothing and accessories to the customer.*
Skills: HTML, CSS, JavaScript, ReactJs, Chakra UI, NodeJs, ExpressJs, MongoDB

- Designed and launched a responsive e-commerce platform with an extensive product catalog, improving user engagement by 35%.
- Implemented state management using Redux, optimizing data flow and reducing load time by 20%.
- Reduced development time by 30% by building reusable components, ensuring consistency and scalability across projects.
- Improved API reliability by 20% through rigorous validation and testing using Postman.

2) InterviewAuto — *AI Interview Platform which supports topic-based, multi-language interviews with feedback integration.*
Skills: HTML, CSS, JavaScript, React.js, NodeJs, ExpressJs, Chakra UI, MongoDB, Open AI, Tailwind Css

- Executed advanced features like camera access, voice recognition, and anti-cheating mechanisms, boosting interview integrity and trust by 30%.
- Developed customizable topics and multi-language support, increasing user engagement by 30%.
- Optimized backend with scalable Node.js, improving efficiency by 40% in managing interviews and feedback.
- Enhanced user experience with a responsive, cross-device interface, improving participation by 25%.

3) MovieX — *A responsive Movie and TV trailer platform with advanced filters and dynamic content display.*
Skills: HTML, CSS, JavaScript, React, Redux, TMDB Api

- Developed a responsive Movie Application UI in React, ensuring an engaging and seamless experience across devices, which increased average session duration by 35%..
- Integrated TMDB API for real-time fetching of movie data, enabling users to explore trending, upcoming, and top-rated movies.
- Implemented advanced search and genre-based filtering, improving movie discovery efficiency by 30%.
- Optimized application performance, reducing API load time by 40%, resulting in a smoother browsing experience.

EDUCATION

1) Masai School, Bengaluru Oct 2022 – Oct 2023
2) G. H Raisoni College of Engineering, Nagpur Graduated with 8.54 CGPA July 2018 – June 2022
  — *B.E. in Information Technology*

CERTIFICATIONS

1) Full Stack Web Development in Masai [*Link*]
2) Full Stack Internship at AppxBuild Technologies Pvt Ltd [*Link*]
